

Dear Fellow Home Owner,

I am writing to highly recommend Ornamental Design for all your home exterior needs. We had to replace our LP siding, as have many homeowners in the Pacific Northwest. After much discussion, we decided that maintenance free vinyl siding was the right choice for us. Mr. Kerry Hicks, the owner and master craftsman at Ornamental Design, worked with my husband and I personally to customize the design of our vinyl siding. We were pleased with the variety of trim and siding colors we had to choose from, and thrilled at the opportunity to have custom design features incorporated into our home's exterior. Kerry worked with us to get the look we wanted.

We love the new look of our home, and are very proud of it! It is beautiful and distinguished looking. Every time we drive in or out of our driveway, we are struck by how nice it looks, and how fortunate we were to have Ornamental Design do the work for us. Kerry is a skilled craftsman, and because of this, was able to give our home a distinctive, custom look that we have not seen offered by others. He believes in putting the customer first, and fully explained the design and color options.

In addition, this winter, when energy prices were soaring, we reaped the added benefit of the pre-siding insulation that is a part of the vinyl siding package. It really made a difference. Because of Kerry's high level of craftsmanship, and building knowledge, we would not hesitate to engage Ornamental Design in future remodel work, both interior and exterior. Please call either my husband or I if you'd like to hear more about our experience and how pleased we are with our new siding and the work of Ornamental Design!

You will be pleased too, if you have Ornamental Design beautify your home's exterior!

Sincerely,

Bob and Jan Thomson
